Benefits of a Proper Alignment Including EZ Cams™

✓ **Prolonged Tire Life**

Tire wear is reduced - increasing tire life

✓ **Better Handling/Improved Safety**

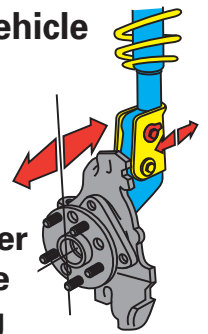

Better vehicle control results in a safer vehicle

✓ **Increased Fuel Mileage**

Save money at the pump - every time

✓ **Provides Built-In Adjustment**

Over the life of your vehicle

Whether you are getting new tires, noticing wear patterns on existing tires, or are experiencing handling problems you may need a Total Wheel Alignment.

Tech Tip:

- Use in struts where the hole in the strut is not elongated.
- For positive change, face the locking tab outward, towards you. For negative adjustment, face the locking tab inward, or away from you.

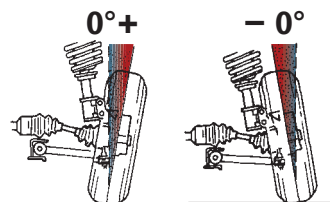

TECHNICAL ASSISTANCE: 800-525-6505

Specialty Products Company®

EZ Cam™ Camber Alignment Chart

What is Camber?

POSITIVE **NEGATIVE**

Camber is the inward or outward tilt of the top of the wheel.

If your vehicle has **POSITIVE CAMBER** the top of the wheel is tilted out, or away from the engine. Too much positive camber can cause wear on the outside of the tires, and could cause extra wear on suspension parts.

NEGATIVE CAMBER is when the top of the wheel is tilted in, towards the engine. If your vehicle has too much negative camber your tires will wear on the inside of the tires, and you could be causing extra wear on your suspension parts.

NEED TO FIND OUT MORE?

Is the vehicle not listed on this chart? Do you need to check if parts are available for other alignment angles? Call **800-525-6505** for a copy of our **2013-2014 Total Wheel Alignment Sourcebook™**. Or go online to www.specprod.com For the newest apps, videos and more!
